

B₄C Nanopowder from NaBond

| | |
|---------------------------|--------------------------|
| Product Name | Boron Carbide Nanopowder |
| Purity | 99.0%+ |
| Dissociate oxygen content | 0.8 |
| Crystal phase | Monocrystalline |
| Particle size | <50nm |
| Specific surface area | 75 m ² /g |
| Loose loading density | 0.01g/cm ³ |
| Color | Gray black |
